

## TUFI MOUSSE ARQUITETURA

CASA 20 GATOS

098

099

Os felinos da família são bem-vindos na morada com jardineiras suspensas que os conectam à natureza. Evidentemente, o projeto de 628 m<sup>2</sup> em Joinville, SC, também se preocupou com o bem-estar dos humanos, beneficiados por muita integração no térreo – inclusive com a área da piscina – e por privacidade no andar superior, reservado às suítes e a um home office. À arquitetura contemporânea, com traços modernistas brasileiros, os interiores somaram ícones do mobiliário de design.

*20 CATS HOUSE: The family's felines are welcome in the house with hanging planters that connect them to nature. Undoubtedly, the 628 m<sup>2</sup> project in Joinville, SC, was also concerned with the well-being of the humans, who benefit from plenty of integration on the first floor – including the pool area – and privacy on the upper floor, reserved for the suites and a home office. To the contemporary architecture, with Brazilian modernist features, the interiors added icons of design furniture.*
