

TUFI MOUSSE ARQUITETURA

APARTAMENTO NO CENTRO

Um lar de estética contemporânea e urbana nasceu na área de 310 m². Foi preciso vestir o apartamento do chão ao teto, preservando a luz natural e a integração na área social. Um sofá modulado azul cumpre função dupla, acomodando o casal e os dois filhos e setorizando o living: de um lado o home theater; do outro, o estar com mesa de jogos; e, na lateral, a sala de almoço, que se liga à cozinha quando as portas espelhadas são abertas. A móveis queridos e obras de arte que a família já possuía o arquiteto agregou novas peças assinadas, como as poltronas laranja, de Jader Almeida, que emprestam frescor à sala.

DOWNTOWN APARTMENT: A contemporary and urban esthetic home was born inside the 310 m² shell. It proved necessary to dress the apartment from floor to ceiling, preserving natural light and the integration of the social area. A modulated blue sofa has a double role, accommodating the couple and the two kids and sectorizing the living room: at one side the home theater; at the other, the living room with a table for board games; on the side, a breakfast room with communication to the kitchen where the mirrored doors are open. To well-liked pieces of furniture and art belonging to the family, the architect added new ones signed by designers, such as the orange Jader Almeida armchairs, which freshen up the room.
